

REMARKS/ARGUMENTS

Entry of this Amendment and favorable reconsideration of the present application is respectfully requested.

Applicant is herein proposing to amend Claim 110, in order to make the language in this claim consistent with Claim 105, from which it depends. Specifically, Claim 105 recites “at least one metal sulfonate polyester compatibiliser additive”, whereas, in unamended form, Claim 110 recites, “wherein said at least one polymeric compatibiliser additive...”. The proposed amendment to Claim 110 would change the term “polymeric” to “metal sulfonate polyester”.

This amendment is not believed to have any effect on the merits of the application, and is proposed in order that the antecedent basis for the limitation in Claim 110 is made clear. Entry of the Amendment is therefore warranted, and such action is earnestly solicited.

Respectfully submitted,

MILES & STOCKBRIDGE P.C.
